Oakland Harbor Improvement.

Assuming that the rivers and harbor appropriation bill will pass at the present session of Congress without disturbing the item of \$150,000 contained therein for the deepening and widening of the channel in Oakland harbor, the United States Army Engineer in charge will have \$412,000 at his disposal to carry out the work. The Federal government is virtually under a bledge to proceed with the work of dredging the channel to a uniform depth of thirty feet at low water and a width of five handred seet, from the ship channel in the Lay to the line of Fallon street, significancously with the coustruction of the quaywell between Myrt e street and Broadway by the city. A contract for that section of the quaywall between Myrtle and Clay streets was awarded months also and the contractors are now proceeding with the work. Preparations are being made for the excavation of the big trench in which the wall is to be built. Once the trenc's is opened the remiorced concrete wall will be constructed expeditiously.

It is reasonable to presume that the government engineer in charge of the larbor improvement will be equally expeditious with the dredging of the channel, so that when the thirty-foot low water line in the latter is abreast of the quaywall the city will be able to proceed with the dredging of that part of the floor of the harbor lying between the channel and the wall to a corresponding depth. With such co-operation of the Jederal and municipal forces the city's new wharves' will be available fo commerce at the earliest date possible.

Oakland harbor development has reached that point in its history when its commercial availability should be bastened. The Federal government has spent approximately \$3,500,000 in bringing the improvement of the channel to its present condition. But the work accomplished with this money has dragged along through a period of thirty-seven years. The pracess has been slow and in consequence more or less wasteful. I owever, a stage has been reached when commerce appreclates wher has been cone and the use of the harbor shows steady growth. If the completion of the harbor were a private enterprise, it goes without say' & that it would be pushed vigorously in or let that the best returns could be the more exicely secured. Any corp ration that had inveited \$3,500,000 in an enterprise would reality supply \$1,000,000 noire, if necessary, to make it productive in the highest degree with the least loss of time. That is the position of Oakland harbor today, and if Congress acted wisely the policy of harbor improvement her would henceforth be cerried out on similar lines. If the government engineers had a million

by the policy of harbor improvement flor would necessary in the first and a multion dollars at their disposal the consistent with the same expedition and economy that it would be facilitated with the same expedition and economy that it would be fit were a orivate indertaking.

Franklin K. Lane's prostocitic appointment by the President to a place on the broken of the new commerce court is a fine compliment to his judicial white, legal attainments of a unquestioned integrity. Lane has proved his exceptional worth to the country and the soundness of his judgment and mastery of court creati law through his long service as a member of the Interstate Commerce Commission. The experience he has acquined in that position will make him invaluable as one of the judges of the rew curt and his selection for the position reflects credit on President and the Scholar and the selection of the wordered changes that have taken place in land values in the country and the selection which has deep in land values in the country and the selection of the base against the first place in land values in the country and the second of the judges of the rew curt and in the more considerable and the president to a considerable and the president to a considerable and the president to a considerable and the more way to be admitted that the words and the second of the judges of the rew curt and in second of the judges of the rew curt and in the position of the wondered changes that have taken place in land values in the country and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of the rew curt and the second of the judges of

My first idea of braking apparatus to be applied to all of the car, of a train came to me one day when a train upon which I was a pa engor was delayed a couple of hour by a coll sion. My first notion was to connect the brake levers of each ar to its draught gear so that an a plic ion of the brakes to the locoriotive which would cause the cars to close up toward the engine would t ereby apply a braking force through the couplers and levers to the wh els if each car. The crudeness of this ldet became apparent upon an attempt to desire an apputatus to carry the scheme into effect.

ATTACK LAUNCHED.

Senator Bailey's reply was read to the convention and slated in effect that it would he inadvisable to write anything "debatable" into the constitution, as it might "provoke the opposition of the President and in the disapproval of Congress."

Delegate Parsons of Cochise county faunched a vigorous attack on Senator Bailey. He said that if the country had been raked with a fine tooth comb there could not have been found a more appropriate person to obtain the desired answer.

Parsons declared: "I am a Democrat; Bailey is said to be, but he doed not represent the progressive sentiment of his constituents."

IS OAKLAND TO BE A CLOSED TOWN?

Adoption of the Alternative Proposition Will Abolish Saloons by Automatic Operation

It Will Put More Than Half the Saloons Out of Business Within 6 Months and Ultimately Abolish All But a Few in the Heart of the City -Oakland's New Hotel Cannot Get a License Under It-City Will Lose Big Revenue

ion which may be voted on to superede and take the place of Subdivision 1, of Section 31 of Article IX of the Out of Business harter as it is framed by the freeholders the charter is complete without the inertion of this alternative proposition and can be adopted as a whole by leaving it out. The alternative is a proposal to mend the charter before it has ever been

Subdivision 31

Subdivision 31 of Section 51 reads as

"To license for purpose of regulation o evenue all and every kind of business ot prohibited by law, to fix the rates of benses upon the same and to provide for the collection thereof by sult or other-wise, provided however that no suc'i 'mense shall be granted for the sale or giving away of spirituous, malt, vinous building or avnagogue in use as a place tion shall not apply to the renewal of any such license which was in force Sepember 1, 1910, which continues in forcuntil this charter goes into effect,"

Decisions in East

By the courts in the eastern states the provision prohibiting the licensing of saloons within 200 feet of any church school or public library has been con struck to mean the distance drawn in traight line from the church, school library to the nearest point of the build ing in which it is proposed to locate

Hence, this provision of the charte ould extend perhaps by a hundred feet the prohibitive area. In other words, the would not be 300 feet, but nearer 46

The alternative proposition containthis portion of the charter, but adds to it other provisions which are evidently intended to lay the ground work for an absolute prohibition at some future time of the retail liquor traffic

The Proposal

After setting forth the language Subdivision 31 of Section 51, the alterna-

tive proposition goes on to say:
"And provided, however, that the Council shall have no power to license ary saloon, bar or other place wherely may be sold to be drunk on the premise any spirituous, mult, vinous or alcoholi-ilquors in residential districts of the city that is to say, in any place within ; radius of 300 feet of which there are more residence than business houses, and medicine under the laws of the State of California, or the sale of such liquors for chemical, mechanical or scientific

The Effect

What the effect would be if this after. native proposition should be inserted if the charter lies in the definition of what constitutes a residential district. Easter have construed a husiness dis trict within the meaning of such restrict tions in an allogether different way from what the common understanding is.

For instance, the Supreme Court of lowa, defining what constitutes places o business, excludes drug stores, groceries feed stores, barber shops, meat marketand the like from business houses.

On the other hand, it has construct todging houses, apartment houses, flats and hotels as residences. By this rule the business district in Oakland would be restricted to very small proportions There would be very few areas of 300 fee in number the business houses. Hence the expiration of the licenses now in existence would gradually eliminate near's all the saloons at present in Oakland, in cluding the annexed district. In fact there would not be one left in the annexed district under this ruling. There fore, the alternative proposition is clearly in endeavor to establish an automatic system by which all the saloons will he eliminated by operation of law within

Vacant Buildings

a few years.

The effect would be to raise taxes or the one hand and leave vacant a great number of buildings now occupied by retall llouar dealers on the other. The city derives an annual revenue at present the like, established for the needs of the from retail liquor licenses of \$197,000 The loss of this revenue would inevitably increase the rate of taxation. There are present, 399 saloons in Oakland, in cluding the annexed district. The vast not make such a locality a part of the majority of these saloens would have busines section and a boarding house is to go out of business very shortly, since renewal of license means a renewal to used by a single family. the present owners of saloons and liquor | Lodg rg houses and apartment houses

As : result, each year would see a number of saloons go out of business and the places they occupy thrown open for rent for other purposes. There would be vacant businers houses all over town in onsequence and the revenue from license: would decrease annually.

The property owners, while losing in rents, would be compelled to pay higher taxes that is, if the alternative proposition be adopted.

Restriction

Moreover, the restriction in the sale of liquor by retail to be drunk on the premises would inevitably send great numbes of people to San Francisco or other places where they can get what or alcoholic liquors in a saloon or public they want to drink, to the great injury our located within 200 feet of any church of business in Oakland. For instance, they want to drink, to the great injury the alternative proposition would of public worship, public school or public up the cafe in the Kev Route Inn. Under hibrary; but such prohibition as to loca-York courts the new Cakland Hotel, nov in course of construction, would be in a residence district and not entitled to take out a liquor license. The Hotel Metropole would not be entitled to a license.

The same rule would apply all over own and we would not have twenty blacks in this city in which a liquor license could be lawfully issued. This would be absolute prohibition in the name of restriction

Hotels Injured

hotels. They will go to San Frareisco or son ewhere else where they can get what 'bey want. The effect would be used for hotel purposes and for the accommo lation of transient guests. There would be a steady drain of money out of town b cause the people living here would dations denied them in their own city.

The Charter Complete

The charter is complete in itself withut the alternative proposition and can be votid for without reference to the iternative. Ostensibly the alternative is intended to prohibit by charter provision the establishment of saloons in residence district. As a matter of fact saloons are not lecensed at present in the rest-dence of stricts. No attempt is being made to licerse them and the sentiment amon-

p cof of this the language of the Suprem " Court of Jowa is quoted.

What the Court Says

"The existence of places of business such a drug stores, groceries, feed stores, barber shops, meat markets and parties ar localities, rather than because of the need of the public generally, if they are in the midst of a locality generally or largely used for residences, does as much a residence as though it were

EDITOR TRIBUND Together with he new City Charter that will be voted in tomorrow is an alternative preposilon which may be voted on to the city. He is held down to the city to the city to the city. He is held down to the city to the one place, and he alone has the right to help to make an actual husiness section a renewal of license in his own name.

Out of Design and he alone has the right to help to make an actual husiness section a residence district within the meaning of the charter so far as issuing liquor

No Increase in Saloons

be free solders, prohibits any increase in the present number of saloons. That is, liquer in the entire city, including the annexed district, is 400. That number cannot be increased unless the charter is mended That provision is an absolute bar to any increase in the number of alcons beyond reasonabe limits. The est letion which forbids the issuance of or new beense within 300 feet of any burch building or synagogue in use as : place of public worship, public school or mblic library is another protection against he intrusion of saloons in places where they should not be located and where they would be an offense to women and children and religiously Public sentiment is an inexorable barrier to saloons being liensed in actual residence districts,

Protects Public

Hence, the charter as it stands protects the public at all points, so far as the re-till of I quer is concerned, and restricts the honor traffic as thoroughly as it is restricted in any city in the United States where the sale of liquor is not absolutely probabited.

In nearly every city where such a stringent provision has been made a part of the law, saloons are not permitted within 210 feet of churches, schools and get set set set with wines or heer when they in cars the shortest distance between the heen clearly stated and understrad desire it they will not remain in our church, school or library and the build. nears the shortest distance between the church, school or library and the hullding in which the saloon is to be located.

Thus, the new charter not only prohibits any increase in the number of saloons, but restricts the saloon traftle in the most off elect manner and in accordance with the rules adopted in New England and the middle states. Unless it is defined to provide for the abolition of the liquor traffic entirely, there is no reason term copies of all the municipal Charters recently adopted in the Inited liquor traffic entirely, there is no reason why the alternative proposition should

WASHINGTON, Dec. 7.—With a cutifling to free interstate service, or view to reaching a satisfactory determination of the application of the present Interstate Commerce .cc to telegraph and telephone commanies, the Interstate Commerce Commission gave a hearing today to official of telegraph and telephone commandes, in "Does the law forbidding rebates telegraph and telephone commandes, in the telephone companies and undue preference apply to telegraph and telephone companies."

Some of the questions presented to the conference were:

"What telegraph and telephone companies, is and undue preference apply to telegraph and telephone companies."

It was not the purpose of the commission to determine the status of any particular companies, but rather to induce a discussion of the meaning and application of the law to the new common carriers generally.

GILT-EDGE SPORT ON TODAY'S CARD AT OAKLAND TRACK

Four Crack Two - Year - Olds Clash in Third Race; Other Events Are Well Filled

Although devoid of special features today's racing card at the Oakland track is a varied and interesting one and should furnish gilt edge sport for the race fans who will make the pilgrimage to the popular amusement park. The main item of the card is a purse affair for 2-year olds in which four youngsters will sport silk. Edmond Ada ns and Maxing are we'l known to local race-goers, but Go'den Agnes and Du'ch Rock are making their first appearance here and their performance will be watched with eager interest. From their work all are in fine fettle and a husting contest is anticspated. The other five races are made up of fair racers and good

Mentry got the shifts daughter of Eddie Jones away on her toes and assuming the lead from the start never re inquish od it.

The further they raced the further away they ran from their field. Star Actor ran a decidedly improved ruce over his last effort finishing with a great rush in the stretch easily took the place. Meltonials closed with a helated rush to be third. Shilling troke his luc sy spell and toppled down of the throne by failing to bring Releigh within the money. The "avorte showed a flash f early speed but did not seem able to untrack hisself at the finish.

POPE CHANGES LAW

Regulations Promulgated by Pontiff Announced to the New York Cleray.

NEW YORK Dec. 7-Changes in he coolesiastical law of the Roman Catholic church as promulgated by Pope Plus, were announced to the clergy of the archdiocese of New rergy of the archdioceee of New York at the triennial synod at St Patrick's cathedral More than 600 priests attended The most important decree is the "Maxima Cura" decided upon by the consistorial congregation at Rome,

"Maxima Cura" decided upon by the consistorial congregation at Rome, which takes from the bishop or archwhich takes from the bishop or arch-histop of a diocese or inchdiocese, respectively, the power to remove a pastor. Hereafter the power of re-moval will rest with a committee, which consists of six priests besides the archbishop. Reasons for the removal of a pas-tor have been decided on by the con-sistorial congregation at Rome as fol-lows. Perpetual insanity such unfit-

Perpetual insanity such unfit-ness or ignorance as renders him in-capable of performing his duties permanent physical of mental infirm-ities the animosity of the people when it renders his work useless and is likely to continue loss of reputa-tion a hidden crime, gloss neglect continued after warnings and diso-bedience to the bishops if continued after one or two warnings

bedience to the bishops if continued after one or two warnings.

Another change announced is that pertaining to the age at which children may receive first holy communion. Heretofore it has been the custom among priests in the English speaking countries not to administer the sucrament until a child is between the uges of 10 and 12. The decree issued makes it importative for the priests the worll over to prepare children so they may receive the first scrament upon attaining the age of reason, which is 7, and in some cases 6.

Why?-

Here is Why the Evening Paper

r a better medium for advertising than the moriing newspaper Because the evening newspaper is the home paper

It is ju threed and taken home or else deliver d into the home each evening. It is read at the clo e o" work earn day by the busy men around their fir sides. It is there that the housewife after the bu ; attention of a day's cuties, stans the advertising columns and plans her purchases for the next da Most housewives plan then visits to the 1 restores to make the purchases the evening befo From if they did pick up a morning paper and see a hargain advertised they would not have time o must have time beforehand to plan This is will the Sinday paper is regarded as a good advertising the hum. The fact that the women have all dev Sunday to read the ads and to plan for their pu chases the next day. This makes Monlay 2 h z business day and it is this fact alone which makes the evening and Sunday Iribune the best advertising It gives the women the largest patronizers of

advertising time to meditate and discuss the acte t sing. It gives them time to plan their purchase, for the next day One Paper distributed to a housewife of Oakland is

worth 10 to the women of

the outside towns.
